

Lingham Primary School

Early Years Foundation Stage

Policy

Lingham Primary School

Approved by Governors: 19th March 2019

Updated: February 2019

Review date: Spring Term 2020

Aim

At Lingham we aim to provide the highest quality care and education for all our children thereby giving them a strong foundation for their future learning. We create a safe and happy environment with motivating and enjoyable learning experiences that enable children to become confident and independent. We value the individual child and work alongside parents and others to meet their needs and help every child to reach their full potential.

As outlined in the EYFS 'Every child deserves the best possible start in life and the support that enables them to fulfil their potential. Children develop quickly in the early years and a child's experiences between birth and age five have a major impact on their future life chances.'

The following documents should be read in conjunction with this policy: Admissions Policy, Health and Safety Policy, Equal Opportunities Policy; Behaviour Policy.

We adhere to the Statutory Framework of the EYFS and the four guiding principles that shape practice within Early Years settings.

- Every child is a **unique child**, who is constantly learning and can be resilient, capable, confident and self-assured
- Children learn to be strong and independent through **positive relationships**
- Children learn and develop well in **enabling environments**, in which their experiences respond to their individual needs and there is a strong partnership between practitioners and parents and/or carers
- **Children develop and learn in different ways and at different rates**

Principles into practice

As part of our practice we:

- Provide a balanced curriculum, based on the EYFS, across the seven areas of learning, using play as the vehicle for learning
- Promote equality of opportunity and anti-discriminatory practice. We provide early intervention for those children who require additional support
- Work in partnership with parents and within the wider context
- Plan challenging learning experiences, based on the individual child, informed by observation and assessment
- Provide opportunities for children to engage in activities that are adult-directed and child-initiated, supported by the adult
- Have a key person approach to develop close relationships with individual children
- Provide a secure and safe learning environment indoors and out

Foundation Stage Curriculum

We plan an exciting and challenging curriculum based on our observation of children's needs, interests, and stages of development across the seven areas of learning to enable the children to achieve and exceed the early learning goals.

All the seven areas of learning and development are important and inter-connected.

Three areas are particularly crucial for igniting children's curiosity and enthusiasm for learning, and for building their capacity to learn, form relationships and thrive.

These three areas are the **prime** areas:

Communication and Language

Physical Development

Personal, Social and Emotional Development

Children are also supported through the four **specific** areas, through which the three prime areas are strengthened and applied.

The **specific** areas are:

Literacy

Mathematics

Understanding the World

Expressive Arts and Design

Children are provided with a range of rich, meaningful first-hand experiences in which they actively explore. We aim to develop and foster positive attitudes towards learning, confidence, communication and physical development.

As a team, we plan from the children's interests to offer experiences in all seven areas of learning.

Practitioners working with the youngest children focus strongly on the three prime areas, which are the basis for successful learning in the other four specific areas. The three prime areas reflect the key skills and capacities all children need to develop and learn effectively, and become ready for school. The balance will shift towards a more equal focus on all areas of learning as the children move through the Early Years at Lingham and grow in confidence and ability within the three prime areas.

Children have whole group and small group carpet sessions which increase as they progress through the EYFS. The children in F1 and F2 have a daily Literacy, Numeracy and Phonics session using 'Letters and Sounds',

The curriculum is delivered using a play-based approach as outlined by the EYFS.

'Each area of learning and development must be implemented through planned, purposeful play and through a mix of adult-led and child-initiated activities'

We plan a balance between children having time and space to engage in their own child-initiated activities and those that are planned by the adults. During children's play, early years practitioners interact to stretch and challenge children further.

In planning and guiding children's activities, we reflect as practitioners on the different ways that children learn and reflect these in our practice.

We create a stimulating environment to support children to play, explore, learn actively and think critically. We support our pupils to build resilience and develop an 'I can...' philosophy.

Observation and Assessment

As part of our daily practice we observe and assess children's development and learning to inform our future plans. We record our observations in a variety of ways. Everyone is encouraged to contribute and discussions take place. Significant observations of children's achievements are collated in their own personal learning journey, which are shared with parents. These ongoing observations are used to inform the EYFS Profile/developmental bands. The child's progress is reviewed every term/half term and is regularly discussed with parents. In the Spring term, parents are invited to attend a parents evening and reports are written twice a year.

Within the final term, we provide the parent's with a report based on the child's progress in the profile. The parents are then given the opportunity to discuss these judgements with the teacher.

Safety

Children's safety and welfare is paramount. We create a safe and secure environment and provide a curriculum which teaches children how to be safe, make choices and assess risks. We have stringent policies, procedures and documents in place to ensure children's safety.

We promote the good health of the children in our care in numerous ways, including the provision of nutritious food, following set procedures when children become ill/accident.

Please see our separate policies and procedures on Health and Safety, Child Protection, Food and Drink; Illness and Injury.

Inclusion

We value all our children as individuals at Lingham, irrespective of their ethnicity, culture, religion, home language, background, ability or gender. We plan a curriculum that meet the needs of the individual child and support them at their own pace so that most of our children achieve and even exceed the Early Learning Goals. We strongly believe that early identification of children with additional needs is crucial in enabling us to give the child the support that they need and in doing so, work closely with parents and outside agencies.

Parents as Partners and the Wider context

We strive to create and maintain partnership with parents and carers as we recognise that together, we can have a significant impact on a child's learning and development. We welcome and actively encourage parents to participate confidently in their child's education.

Working with other services and organisations is integral to our practice in order to meet the needs of our children. At times we may need to share information with other professionals to provide the best support possible.

We draw on our links with the community to enrich children's experiences by taking them on outings/inviting members of the community into our setting.

Transitions

Transitions are carefully planned for and time given to ensure continuity of learning. At any transition, we acknowledge the child's needs and establish effective partnerships with those involved with the child and other settings, including nurseries and child-minders. Children attend introductory sessions to develop familiarity with the setting and practitioners. In the final term, all staff liaise to discuss the children, their needs and staff analyse the assessment data to inform planning and inform an effective transition.
